PROJECTS

LADS ERP Platform ★

Enterprise resource planning system with modular features for business operations, user management, and reporting. Built with Laravel and Livewire.

PHP · Laravel · Livewire · MySQL · Bootstrap

The Learning Panda Portfolio ★

This portfolio site — a Laravel CMS for showcasing professional history, projects, education, and skills with a theme-sensitive dark-first design.

PHP · Laravel · Tailwind CSS · SQLite

Demo: http://localhost:8000 Repo: https://gitlab.com/the.learning.panda/da_portifolio

ORA ERP ★

A modern, cloud-based Enterprise Resource Planning (ERP) platform designed to help businesses manage inventory, sales, procurement, production, finance, customer relationships, asset management, and reporting from a single integrated system. ORA ERP is highly configurable and scalable, making it suitable for manufacturing, distribution, retail, service, and multi-branch operations. The platform streamlines workflows, improves visibility into business operations, and supports data-driven decision making.

React · TypeScript · Node.js · Express · PostgreSQL · Drizzle ORM · Tailwind CSS · PM2 · Nginx

Demo: https://ora.pandasnacks.online

Panda Snacks Hub | website

A digital platform developed for Panda Snacks Hub Pvt Ltd to support product marketing, reseller management, customer engagement, and distribution operations. The platform includes product catalog management, reseller location services, customer contact channels, event promotions, and neighborhood-based reseller discovery through the "Find a Panda" feature. The solution bridges the gap between customers and local resellers while strengthening the Panda Snacks distribution network.

Astro · React · TypeScript · Node.js · Express · PostgreSQL · Tailwind CSS · Nginx
